### **Whitespace Acquires Local Government customers of Waste Manager**

#### ***RWM 2008 Stand 218***

*RWM Show, 16.09.2008:* Whitespace Waste Software (WSWS) has acquired the local government customer base of WasteManager solutions Limited.

The acquisition will allow all of the current WasteManager Local Government Customers the ability to upgrade to the market leading Power Suite product from Whitespace.

Phil Garvey, Managing Director at Whitespace said, "The acquisition is excellent for all parties concerned. It allows WasteManager to concentrate on its core market, it gives Whitespace additional customers and most importantly it gives all the existing customers an excellent upgrade path to the latest technology available."

Whitespace's waste management solution, Power Suite, enables Local Authorities to efficiently manage their Domestic and Trade waste collection services, together with Street Cleansing operations. Power Suite integrates with various other Council IT systems (e.g. Accounting, Gazetteer, GIS and complaint management) and produces exportable reports on all aspects of system information and data.

Peter Hughes, Managing Director at WasteManager Systems added "We hope this will be the beginning of a long partnership with Whitespace. It gives all of the current customers an excellent upgrade path. We will continue to work together to provide a seamless transition for all our customers."

## Press Information

Whitespace will be demonstrating its Power Suite applications on the stand.

*ends*

### **About Whitespace**

Whitespace Waste Software Limited is the UK and Ireland market leader in the supply of waste management software to Local Authorities. Since 2005, Whitespace has grown rapidly in size with now over 30 UK customers that include Unitary, County, Metropolitan, Borough and District Councils. Recent projects include solutions for Ryedale District Council, Salisbury District Council, South Cambridgeshire District Council and Suffolk County Council.
