

Press Release

PM Group and Whitespace Waste Software today announce a joint marketing agreement. Geoff Mountain, PM Onboard's Chief Executive says "It is PM Groups intention to work with Whitespace Software on specific projects where material co-operation is required for success of our joint customers – I expect this relationship will continue to flourish and grow as the partnership matures."

According to Phil Garvey, Managing Director, Whitespace Waste Software – "I am delighted with this agreement. I feel it validates our focus on the sector. I look forward to working very closely with all the team at PM Group."

About PM Group

PM design, manufacture and service onboard weighing systems for the commercial vehicle industry. Its systems can be installed to any type of road going vehicle from a light commercial van to a 44 tonne articulated tractor-trailer. Its main markets are bulk haulage and wastes management.

PM operates from Airedale House, its head office in Bradford, UK, with additional sales and service offices in Dublin, Paris, Ravels in Belgium, Roosendaal in the Netherlands and Stadtlohn in Germany, with dealers in several other countries around the world.

To support its customers, PM has several specialised departments staffed by electronic and software developers, mechanical CAD designers, service call handlers and people with skills in; graphic design, IT, weighing system installation, purchasing and human resources.

About Whitespace Waste Software Ltd

With Waste Industry experience dating back to 1989, Whitespace Waste Software Limited is a leading specialist in the design, installation and implementation of Waste Management software for councils and private contractors in Europe. From operational systems in waste management, through trade invoicing Whitespace has products that have been designed specifically for the industry.

As well as packaged software Whitespace also acts as an integrator taking data from multiple systems and providing analysis and reporting.
